

Camp Eyabsut 2019

"To Rise Above Anything."

Camp Eyabsut's mission is to support, enhance and positively impact the quality of life for young burn survivors through teambuilding, challenging activities and friendships in a fun and safe camp environment. This year over 60 kids from all over the Pacific Northwest and Alaska participated. A HUGE thanks to all the firefighters, sponsors, UW Burn Center staff and faculty who joined in the fun to make this year a huge success. Don't know about Camp? Visit <https://www.campeyabsut.org> to learn more and make sure to view the photo gallery to see what all the fun is about!

The study, 'Virtual-environment home rehabilitation: a randomized controlled trial' is ongoing and at present we have enrolled 25 adults.

Participants will wear an actigraphy device on their wrist during home rehabilitation and share weekly activity for 3 months after hospital discharge.

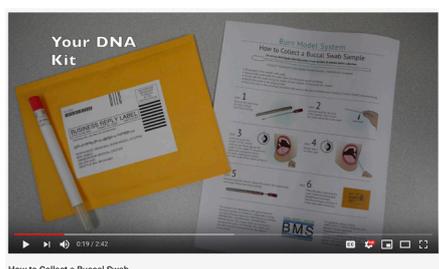

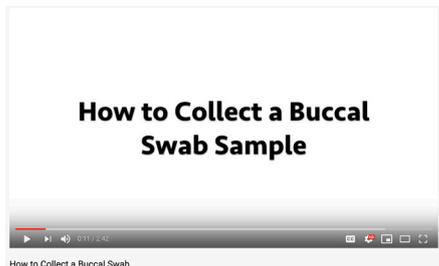

If you are interested in this study, please contact

Gretchen Carrougher at 744-2866 or email carrough@uw.edu

INSTRUCTIONAL VIDEO

For participants enrolled in our Genomic Predictors DNA study there is a new instructional video now posted online

<https://www.youtube.com/watch?v=oSvMEyslWtY&feature=youtu.be>

Genomic predictors of functional outcomes after burn injury

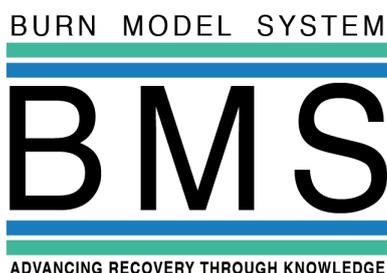

The goal of this study is to learn more about genetic factors that influence long-term physical and emotional recovery after burn injury. There are now 3 participating BMS centers and over 70 participants currently enrolled in our study. If you are interested in providing a cheek (buccal) swab sample for DNA, contact Gretchen Carrougher at carrough@uw.edu or 206-744-2866.

Campfire Prevention Tips

- Clear a 10-foot diameter around the firepit (down to soil)
- Keep a bucket of water, dirt or a shovel nearby to reduce flames if necessary
- Never leave a campfire unattended!
- Completely extinguish the fire before heading off to bed by throwing water or dirt on it and stir the ashes and embers to ensure the coals cools and another fire won't start

Visit us online and social media

The NWRBMS maintains an active social media presence on both Facebook and Twitter. To follow/join us on Facebook, search "Northwest Regional Burn Model System". From Twitter, search "@NWRBMS" or go to <https://twitter.com/nwrpbms>.
